

GIROVAP BT50

Girovap-BT50 is a multifunction steam floor washer, able to steam wash and sanitize any kind of floor types.

The machine provides various functions such as:

- Steam cleaning
- Sweeper
- Scrubber
- Polisher
- Wet and Dry vacuum cleaning

With maximum pressure of 8 bar with continuous steam system the machine is nowadays the best semi-automatic steam floor washer for wide surfaces in the market.

The mechanical action of the motorized roller brushes (1000 RPM) with the high steam temperature ensure a perfect surface cleaning and sanitizing.

Girova-BT50 has the vacuum motor and brush motor powered by battery, when used as sweeper, scrubber, polisher the machine can operate wireless. The steam generator instead has an electrical 3 liter boiler with a maximum power absorption of 3400 Watts and should be plug into the electric outlet.

Two kits of accessories are provided with the machine, the steam kit of attachments and the vacuum cleaning kit allow operators to do other steam and vacuum cleaning jobs.

TECHNICAL SPECIFICATIONS:

<u>STEAM GENERATOR:</u>	230V 50/60 Hz
Boiler capacity	3 Liters
Heating element power	3400 Watts
Refilling water tank capacity	5 Liters
Detergent water tank capacity	5 Liters
Maximum steam pressure	8 bar
Maximum temperature (in boiler)	176°C
Steam generator weight:	30 Kgs
<u>FLOOR WASHER:</u>	24 D.C.
Battery n°/Volt/Ampere-hour	2/12/85 AGM/GEL
Battery Autonomy (Hour)	2,2 Hours (+/-)
Brush electric motor-power	24V – 400 Watts
Number of rotary brushes	2
Rotary Brush R.P.M. (Rounds Per Minute)	1000
Wet and dry vacuum motor-power	24V – 550 Watts
Vacuum depression mm.H2O (in.H2O)	1350 (53,15)
Recovery Dirty Tank Capacity Liter (Gallon)	62 (16,38)
Brush head width	500 cm
Main Unit Dimensions	710x1060x970H cm
Yield floor wash and dry with water and detergent	1850 m2/hr
Yield steam floor wash and dry with steam	1650 m2/hr
Machine gross weight	160 Kgs
Traction	Semi-automatic
